About the Summer Institute for the Gifted

SIG has provided gifted and talented students with superior programming on some of the most prestigious campuses in the country since 1984. Within those 26 years, SIG has grown from a single session in New Jersey to ten residential programs and nine day programs in addition to the Saturday sessions. In 2009, we proudly served over 1,500 academically gifted students ranging from Kindergarten to 11th grade.

SIG combines both traditional summer fun and challenging academic courses to provide a perfect atmosphere for learning, growing and accomplishing meaningful goals that will nurture and enhance each child's gifts.
